Granite City City Council
2000 Edison Avenue
Granite City, IL 62040

Dear Council Members:

Respectfully, I submit my formal request to speak at the next Granite City Council Meeting August 3rd 7pm. I will use my 3 minutes to present about my proposal City Laboratory. This project has two goals: (1) Provide a space for businesses to problem solve (2) Provide a space for people to debate ideas freely. Already I have commitment from companies to provide technology, resources, and jobs to Granite City. This presentation is to briefly outline the idea and begin the discussion with the Mayor and the City Council members.

About me, I was born and raised in Granite City. This is my hometown. I am here to make it better by working together with everyone.

Sincerely,

Chris Deshon
